

T2.2-21 Commercial Responses

1. A clear business structure/organogram of the tenderer, both overseas and within South Africa, in respect of the erection, testing, commissioning, handover and training associated with the straddle carriers.
2. If any South African entity is included in 1 above, a valid tax clearance certificate is to be submitted in respect of that entity.
3. Confirmation of the customs tariff heading to be applied
4. Details of how the Straddle Carrier will be imported i.e. as a complete product or as separate parts for assembly in South Africa.
5. Is the equipment to be used for the assembly imported? If so, a permit for temporary importation is required as there is no industrial rebate available.
