

Main Offer	Guarantees and Warranties: Single lift as per TPT Spec	Tender Schedule: T2.2-5 -1
-------------------	---	---------------------------------------

The extent of guarantees and warranties in excess of the standard 12 months that can be offered by the Tenderer on electrical, mechanical and electronic Plant, and particularly on the corrosion protection of the structure, will play an important role in the evaluation of the tenders. The Tenderer is required to indicate on the schedule what warranty period is offered for each of the items listed, as well as much detail as possible on the extent of **the** guarantee. The Tenderer is encouraged to offer any other value adding element related to guarantees, warranties and technical back-up, like preferential customer status that the Employer will be afforded, preferential pricing and/or delivery that would be applied for purchasing of spares by the Employer, etc. The Tenderer must also clearly indicate what technical support would be available from him after the engineer allocated for the 12 month period leaves.
